EDUCATION

Diploma Of Information Technology
South Australian Institute of Business & Technology
02/2018 - 12/2018   *GPA 6.13*

Bachelor of Information Technology
University of South Australia
02/2019 - 12/2020   *GPA 6.5*
Capstone courses
- Data Structure
- Software Development for C++
- Artificial Intelligence
- Web Development

PROJECTS

Engineering Data Management System
Future Industries Institute | UniSA

07/2020 - 11/2020
A data management system developed for the research of thin-film coatings conducted by the Future Industries Institute in UniSA.
Achievements/Tasks
- Gathering the system requirements with clients
- System design
- Built a stand-alone database to store specific test data
- Develop a web-based system with Django framework
- Take a major role in coding

KEY STRENGTHS

`Problem Solving` `Self-learning` `Teamwork` `Negotiation` `Trilingual`

TECHNICAL IT SKILLS

Language
- HTML, Java, Python, C++, C#, JavaScript, VB.NET, Swift, SQL

Framework
- Django, React.js, ASP.NET, Bootstrap, REST API

Version Control
- Github, Gitlab

Cloud Services
- Amazon Web Services, Google API (Youtube, Gmail)

OBJECTIVE

Seeking an internship or full-time position in the web development industry.
